EFFECTIVE CONTENT DELIVERY

## Flexibility for Content Management

Thanks to its bar type format, it is optimized to show a vertical or horizontal object providing a memorable viewing experiences to the viewer.

Multi Screen Mode with 4PBP

The Picture-by-Picture (PBP) feature allows you to show multi content in one single display by up-to four parts. It is very useful to deliver various advertisements or pieces of information at the same time without bezels among them.

OPERATIONAL EFFICIENCY
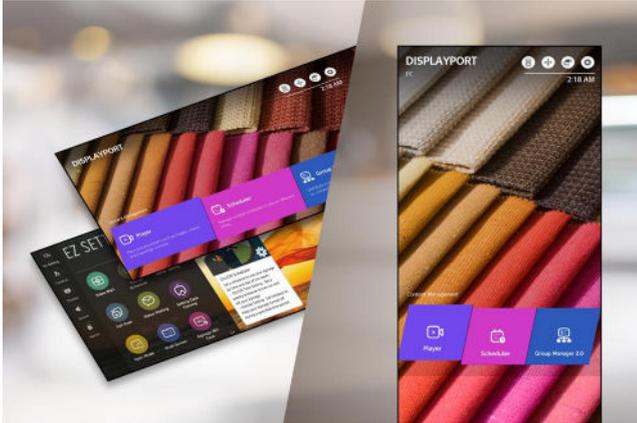

User-friendly Menu

The Ultra Stretch display offers a user-friendly UX to simplify approach flows, groups similar functions together, and adopts an intuitive GUI for ease of use. When using the display in portrait mode, menu can also be adjusted accordingly.

Tiled Scene with Immersive View

The 88BH7G can show a tiled scene by up to 15×15 configuration. It will be a good way to build a large screen or provide visual impacts to customers differently.

LAN Daisy Chain Management

By using this daisy-chained network feature, you can execute commands such as controlling, monitoring and even updating firmware for multiple displays at once.

Real-Time Monitoring with ConnectedCare

Easier and faster maintenance are available with our optional cloud service solution LG ConnectedCare*. It remotely manages the status of displays in client workplaces for fault diagnosis and remote-control services, enabling the stable operation of clients' businesses.

* LG ConnectedCare is the brand name of LG Signage365Care Service. The availability differs by region.
