# **BIM Plus-X Series**

### **Specification**

| Model   | BIM Plus-X1.9                 | BIM Plus-X2.6   | BIM Plus-X3.1   | BIM Plus-X3.9   | BIM Plus-X5.2 |
|---|-------------------------------|-----------------|-----------------|-----------------|---------------|
| Pixel Pitch (mm)                              | 1.9                           | 2.6             | 3.1             | 3.9             | 5.2           |
| Pixel Density (pixel/m²)                      | 262144                        | 147456          | 102400          | 65536           | 36864         |
| LED Type                                      | SMD                           |                 |                 |                 |               |
| Panel Size W×H×D (mm)                         | 1000*500*42 / 750*500*42      |                 |                 |                 |               |
| Panel Resolution W×H                          | 512*256/384*256               | 384*192/288*192 | 320*160/240*160 | 256*128/192*128 | 192*96/144*96 |
| Panel Material                                | Die-cast Aluminum             |                 |                 |                 |               |
| Weight (Kg/m²)                                | 20                            |                 |                 |                 |               |
| Voltage                                       | AC110~220V                    |                 |                 |                 |               |
| Brightness (nits)                             | 800                           | 800/3000        | 1000/3000       | 1000/3000       | 1000/3000     |
| Brightness Adjustment                         | Programmable/Automatic/Manual |                 |                 |                 |               |
| Viewing Angle (H/V)                           | 160°/120°                     |                 |                 |                 |               |
| Gray Scale (bit)                              | 14~16                         |                 |                 |                 |               |
| Refresh Rate (Hz)                             | 3840                          | 3840            | 1920/3840       | 1920/3840       | 1920/3840     |
| Frame Rate (Hz)                               | 50/60                         |                 |                 |                 |               |
| Contrast Ratio                                | 8000: 1                       |                 |                 |                 |               |
| Color Temperature (K)                         | 2000-10000 (Adjustable)       |                 |                 |                 |               |
| Average Power Consumption (W/m²)              | 120                           | 120             | 145             | 145             | 145           |
| Maximum Power Consumption (W/m <sup>2</sup> ) | 475                           | 475             | 580             | 580             | 580           |
| Serviceability                                | Front                         |                 |                 |                 |               |
| IP Rating                                     | IP40                          |                 |                 |                 |               |
| Lifespan (Hours)                              | 100000                        |                 |                 |                 |               |

Fast Interlock

Mixed Splicing Easy Maintenance

## **Considerate Details**

Upgraded one-piece molding die-cast BIM Plus-X cabinet features more ergonomic product details to elevate customer experience.

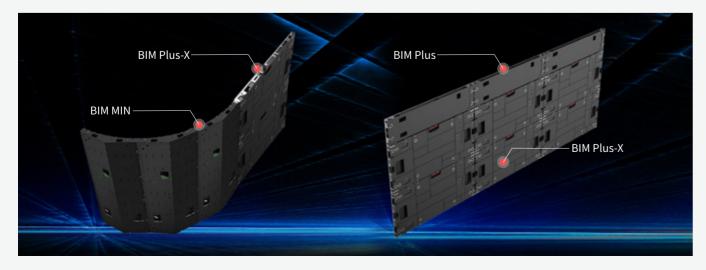

#### **Various Installation in High Efficiency**

Thinner & lighter high-precision cabinets feature interlocks to facilitate fast installation like direct wall mounting, hanging & stacking.

## **Mixed Splicing, High Practicality**

BIM Plus-X Series supports up-and-down mixed splicing of BIM Plus Series, sharing common modules; and left-and-right mixed splicing with BIM MIN Series, offering higher flexibility.

# **Creative Splicing, Beyond Imagination**

BIM Plus-X allows 90° rotation without color cast and multiple creative seamless splicing including L shape, cube, concave & convex, etc.

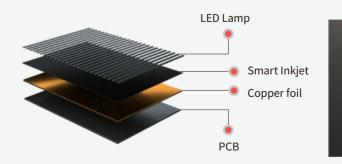

## **Friendly Front Maintenance**

Power supply, hub card and modules can all be maintained from the front to save your space.

## Advanced Technologies, Outstanding Performance

Patented smart inkjet craftsmanship allows vibrant and sharp presentation in higher contrast ratio; Unique nano coating provides higher protection against blind lamps, LED caterpillars, etc.

No Inkjet

Inkjet - 13% higher contrast ratio
