Key Features and Benefits

Richer and Easier Meeting Control Features

CTP18 adopts effortless and native Microsoft Teams or Zoom controller experience, making meeting control could not be easier. The touch control of the screen outperforms traditional control modes magnificently. You can create or join a meeting on the home screen, and all meeting controls can be navigated on CTP18 with just a touch or a swipe of your finger, including previewing and adjusting the camera, changing the participant layouts, recording, etc.

More Efficient Collaboration

CTP18 can be paired with video conference endpoint, and multi-touch is performed on the touch screen, which is convenient and simple to control the meeting. Supporting operations such as answering or hanging up calls to meetings, provides an easy and quickly meeting experience. At the same time, the paired devices can be directly configured on the CTP18, reducing multi-directional operations.

Clutter-free Meeting Space

CTP18 supports PoE where one cable carries both data and power for the device. CTP18 supports configuration of paired devices and meeting control features it eliminates the troublesome wiring connection between the TV area and the conference table, creating a clean and well-organized meeting space.
