ASSEMBLY PROCESS

1st STEP

Position the two tubes in order to position them at the desired height. Once the height is set, secure each tube with an M6x16 screw and an M6 washer.

The minimum or maximum position indicated for the positioning of the screen is intended to be the centre of the screen itself

2nd STEP

Insert the horizontal crosspieces as shown in the figure below and fix them with 4x screws M6x25 and 4x washers M6

Insert the two VESA bars onto the horizontal crosspieces. The screen must be installed after completing the cart assembly.

3rd STEP

Position and secure the front shelf (2x M6x16) and the webcam shelf (1x M6x16). Place the webcam bracket on top of the monitor to make it stable.

The cart is ready and you can mount the screen
